How organization pricing works

- Pricing is based on the YBB title selected and the number of learner seats needed for that title.
- Organizations can purchase different quantities for different YBB titles in the same quote or order.
- The same learner may receive more than one licensed YBB title when the organization purchases the required title entitlements.
- Seat tiers are calculated per title. Seat counts from unrelated titles are not combined to reach a larger tier.
- Organization access is coordinated through Black Dollar Blueprint for onboarding, procurement and custom needs.

Example: 25 seats for one YBB title + 10 seats for another title is allowed.

Pricing is per selected title

If an organization licenses two different titles, each title has its own learner-seat block and annual price.

100+ learners

Large implementations, districts and unusual configurations are quoted individually.

No YBB age/topic bundles are currently listed in this guide. Bundle pricing will be published only after eligible bundles are launched.

Mix YBB titles to fit your learners

You do not have to buy the same number of seats for every YBB title. Each title keeps its own purchased, assigned and available seat count.

Example	License Block	Annual Price
1	25 Core seats for My First Budget & Spending Blueprint™	\$349
+	25 Advanced seats for Junior Money Blueprint™	\$449
	Combined annual license total	\$798
2	50 Advanced seats for Junior Money Skills Kit™	\$699
+	10 Advanced seats for Teen Money Blueprint™	\$249
	Combined annual license total	\$948

What organization licensing includes

- Licensed learner access for the purchased YBB title and seat count.
- Interactive YBB learning experience and downloadable workbook/materials where included with that product.
- Saved learner progress and supported practice, controls, progress and review features.
- Authorized teacher/administrator access without consuming learner seats.
- Organization onboarding and normal organization support.
- Groups/classes and other educator features where supported by the live YBB platform.

One learner, multiple titles

A learner may hold more than one licensed YBB title when each required entitlement has been purchased.

Teachers do not use seats

Authorized teacher and organization-admin access does not reduce the learner-seat count.

- Standard organization licenses use a common annual organization term.
- Additional seats and title changes during an active term can be quoted based on the current license and remaining term.
- Multi-year organization arrangements may be available by quote.
- Custom quotes are recommended for 100+ learners, unusual title mixes, district/multi-site programs, sponsorships and special implementation needs.
- Sponsors do not automatically receive personally identifiable learner information merely because they funded access.
